

# System requirements

# System requirements

If you intend to use the Sen2-Agri system on a **local site (~90 000km<sup>2</sup>)**, the **minimum system requirements** to install and run this system are as follows:

- CPU: 8 Cores
- RAM: 32GB
- HDD Storage: 4 TB
- SSD Storage: 250 GB (optionnal – for temporary files)

If you intend to use the Sen2-Agri system on a **national site (~500 000km<sup>2</sup>)**, the **minimum system requirements** to install and run this system are as follows:

- CPU: 16 to 32 Cores
- RAM: 64GB to 128 GB
- HDD Storage: 10 TB is enough even if 15TB is recommended
- SSD Storage: 1 TB (optionnal – for temporary files)
